## PROFESSIONAL SUMMARY

I have 8 years of experience as a software developer, I have worked on several software projects.

In 2014, I participated and won third in the inventor's event held at the college.

I managed to gain several professional experiences in terms of skills in the area and how to deal with clients. I learned to deal with customer concerns and turn them into solutions.

In 2018 I was included in a Public Railway Transport company as a Senior programmer. I had the opportunity to improve my skills and learn to work in a team. We create many technological solutions to improve the activities of the company's employees.

My next goal is to solidify a career in an international company.

- Programming Languages: PHP, C++, Java and Dart
- Frameworks: Laravel, Symfony, Flutter and Vue.js
- Source and Version Control: Git, GitHub
- Databases: MySQL, SQL Server, SQLite

## WORK HISTORY

### SENIOR DEVELOPER

02/2018 to CURRENT

#### Benguela Railway | Lobito, Angola

- Benguela Railway; It is a rail, passenger and cargo transport services company. Responsible for connecting several provinces (states) of the country Angola.
- As a Senior Developer I was responsible for creating, maintaining and updating the company's systems, in particular the SFB (Rail Ticketing System).
- The SFB is the company's ticketing system, its implementation allowed to have greater control of sales, reduce expenses in creating tickets and increase the company's profit.
- Other companies in the country in the same sector have also adopted

the same system for their ticket sales. Making SFB the system used by railway companies across the country Angola.

## CO-FOUNDER

01/2013 to 10/2022

### Ga&Be | Lobito, Angola

- In 2013, together with my partner, we created a company for software development. I was responsible for modeling, creating the system.
- In 2014 we started creating a system for product sales and inventory control (avashop), unfortunately due to low demand in the domestic market, with only two sales, it was not possible to maintain the System.
- In 2016 it was discontinued, and its source can be seen in my repositories.
- In 2021 we launched the online sales service (Acácias Market).
- In 2022 we launched the provincial (state) local court portal.

## EDUCATION

### High School Diploma

06/2016

Universidade Katyavala Bwila, Angola
